

# modbar steam

More than just a steam station, Modbar Steam delivers a minimal, modern aesthetic coupled with power and control. Give your customers a full view of their drink being prepared, from espresso pull to rosetta.

Recreate a traditional espresso machine with two Steam taps next to your Modbar Espresso, or set up distinct service areas to suit your workflow. Cafes can add a Steam tap or two to boost throughput, rather than purchasing a second full espresso machine.

---

**double wall pro touch wand**

**chromed tap**

**ergonomic handle designed to match Espresso AV**

**custom handle finishes walnut (standard) or maple**

**omnidirectional ball fitting**

**minimal purge required with no steam valve rebuilds**

**linea-style porthole boiler sight glass**

**simple on/off switch controlled by solenoid in the module**

**right-hand side connections for easy service access**
